GORE-TEX INSIDE

If you want to spend the whole day out, you want to avoid numb fingers. Even in harsh, cold conditions the whole system of inner lining, membrane and outer material is optimized to keep your hands warmer for longer.

WATERPROOF FABRIC TREATMENT

The fabric is laminated with a process that permits to add a breathable waterproof membrane to the outer material, optimizing warmth and comfort while keeping the hands dry.

GOGGLE & NOSE CLEANER

The mini goggle squeegees help to easy-clean your lenses. The special velvet fabric on the thumb provides a soft place to wipe your runny nose.

BREATHABLE SYSTEM

An air exchanging vent is placed on the back of the glove allowing moisture to escape. This improves the drying time of the glove and avoids hands getting wet.
