THINSULATE™

The microfibrils of Thinsulate™ insulation are ten times smaller than the fibres of other synthetic insulations, which means they're much more efficient at trapping air and keeping in the warmth.

MEMBRA-THERM PLUS

A highly breathable membrane insert that creates a waterproof barrier between exterior layer of the glove and the insulating materials. It optimizes warmth and comfort by keeping the hands dry.

IMPACT PROTECTION

Knuckles and underside of cuff are comprised with a specific anti-shocking material for improved protection and are reinforced with abrasion resistant fabric for top durability.

PULLER

A wider puller inserted in underside of cuff helps to properly wear the glove/mitten
